

Year 2 Homework - 15.01.26

Spelling

This term the children have been learning about syllables. I have enclosed a worksheet which will help the children to practise sorting words into the number of syllables they have. We have talked about how knowing about syllables can help us to read and write words by breaking them down into smaller chunks.

Maths

This term we would like the children to practise their number facts using the online programme 'Numbots.' We have enclosed their log in details with the homework along with some information about how to access Numbots. The children have been practising using Numbots at school and have been very engaged by it. We would like the children to aim to be practising on Numbots for five/ten minutes every night please. Any questions then please come and ask.

Many thanks

Mrs Lorne and Mrs Lax
