

Year 2 Homework - 17.09.26

English

This week in phonics we have been looking at tricky words.

Please can you practise these year one common exception words (attached) at home this half term, so the children are secure on these before moving onto the year 2 words.

Some ideas of how you may practise these words are listed below:

- *Try writing them out in different coloured pens and in different sizes.
- *See how many times you can write each word in 1 minute.
- *Play a pairs matching game with the words.
- *Use red and green pens to write out the red (tricky letters) and green (letters you can sound out) in each word.
- * Put the words up around the room. Ask a grown up to call out a word and try to find it as quickly as you can. When you get to it try writing the word.
- *Ask a grown up to write the word three different ways. Can you identify the correct spelling and write it down.
- *Try putting the words into a sentence and writing the whole sentence down.

Maths

For maths homework this half term we would like the children to be practising their maths facts online using the programme 'Numbots.' You may already be familiar with this programme from Year One but we have attached the children's log in details and details to how to access it to this letter.

Many thanks

Mrs Lorne and Mrs Lax
